Commonly associated with the policy of direct extension of sovereignty and dominion over noncontiguous and often distant overseas territories, it also denotes indirect political or economic control of powerful states over weaker peoples. He then develops his analysis of the imperialist and ideological characteristics of Western social sciences to posit alternatives which may more successfully overcome permanent underdevelopment; and advocates a struggle for a new model of social sciences which is socialist-orientated, and that developing countries reject Western models. Already by the s colonies had assumed heightened importance as welcome outlets, not only for criminals The Social Science Imperialists outcasts, but also for increasingly large numbers of migrants who could not secure adequate The Social Science Imperialists and resources in the mother country.
