The captives on Koban have split into two camps with the first embracing genetic modification to be able to better handle the gravity, heat and atmosphere and those that haven't. The war is intended to last generations as they apply their own version of "natural selection" to cull their weaker warriors in combat, purifying the Krall gene pool with finest warriors for breeding. Things are changing They conduct a preemptive strike on a Thandol base. Cal has all of the answers to these age-old questions, for a very simple reason. I finished the first two a little over a month ago and I just keep reliving the story in my head, already gearing up to re-read them .
